ARRESTED FOR FORGERY

F. A. Vincent, Member of State Police is in the Toils

Last evening F. A. Vincent, a member of the State Police was arrested by Deputy Sheriff Knoblock on a warrant sworn to by a brother member of the force charging Vincent with forgery.

The crime was committed on the 19th day of June, Vincent signing the name of Sowden to a check for \$50 issued on the Carson Valley Bank of this city. The check was presented at the bank and the money paid over by the cashier.

It is understood that Vincent has been given several days to make good the amount but being unable to do so a warrant was sworn out for his arrest on the charge above named.

It is understood that Vincent has been discharged from the force although this assertion may not be a fact.

He was arranged in the justice court this afternoon on the charge but asked for a continuance until tomorrow morning at 10 o'clock which was granted. He will probably be bound over to await the action of the grand jury.

Wm. Woodburn is acting in the capacity of prosecuting attorney during the absence of District Attorney Roberts who was called to California by the illness of his father.

MINING PROPERTY IS SOLD

For Big Figures at Rawhide and Outlook is Much Better

The men of money are coming to Rawhide. This week two big deals went through. The control of the Rawhide Queens Mines Company, on which estate is the famous Kearns No. 2 lease, was optioned by New York and Philadelphia capital, at a valuation of one million dollars for the entire mine. The first payment on the two Mascot claims was made in Reno the deal on that property having been put through last week. A million dollars for a mine which five months ago had nothing further than some rich surface showings to boast of is a pretty fine thing in any camp, and the best possible advertisement for the resources of the camp. The showing on the Kearns No. 2 did the work and the Eastern experts who were sent here to inspect those showings were unanimous in their praise of the ground.—Rawhide Press-Times.

Saves Golden Building at Reno From Destruction by Fire

RENO, July 2.—But for the heroic efforts of the fireman in the Golden building a holocaust might have resulted yesterday afternoon. The oil feed valve into the furnace became out of order and refused to check the flow of oil into the furnace. Before Freeman, the fireman could get the oil turned off an explosion occurred in the furnace from the accumulation of gas and the man was hurled across the fireroom. Quickly recovering he managed to get to the main feed pipes and turned off the oil and then got the hydrants to working in an effort to save the building. The fire department was called in and extinguished the flames with but a small damage to the building. A catastrophe was only averted by the prompt action and presence of mind of Freeman.

Gray or Johnson Wanted

DENVER, July 2.—Hundreds of delegates are arriving in this city by every train and taking possession of their quarters which are prepared to receive them.

No definite solution of the man to tail the ticket has been reached today.

Both Gray of Delaware and Johnson of Minnesota today reiterated their statements of the past few days that they would not take the nomination for vice president but at the same time great pressure is being brought to bear on them and it may yet be announced that one of them will accept the nomination.

Noted Detective is Dead

Albert Gallagher, known to a number of people in this city from the part he took in the mint theft case here a number of years ago died at Buffalo a few days ago. Gallagher received injuries from which he never recovered at the time of the assassination of President McKinley at Buffalo. He was one of the personal guards of the president and was the man who grabbed the gun from the assassin. In the melee which followed he was mistaken for the assassin by the mob and was severely kicked and beaten. Cancer of the liver developed and it was from this cause that death resulted.

PRISON WAS FULL

RENO, July 2.—Standing room only was the order of business at the police station last night. Most of the arrests were of men who had imbibed too freely in the wine that is red and beer that is cool and who are properly celebrating the anniversary of the nation's birth after their own liking.

THE RENO CARNIVAL

RENO, July 2.—Hundreds and hundreds of visitors from all parts of the State are gathered here enjoying the hospitality of the city and taking in the sights of the big carnival. That the big affair will be a decided success is a foregone conclusion.

ADM. DEWEEY

Vilified by Socialist at San Francisco in Accusing Speech

SAN FRANCISCO, July 2.—The members of the Spanish War Veterans are investigating a remarkable speech made by Attorney E. E. Kirk vice-commander of the order, in which Admiral Dewey is accused of having arranged the details of the battle of Manila bay in advance with the Spanish Commander and the army is accused of being under Wall street domination. Kirk is a socialist and may be expelled from the order on account of his utterances.

According to Kirk, Admiral Dewey could have sent a dispatch boat ashore and demanded the surrender of Manila and saved many lives.

"But Dewey was not there to save lives," said Kirk, "but to make an admiral."

Kirk said that the Spanish commander had been grafting by carrying the names of dead soldiers on the payroll and that he and Dewey made up the battle beforehand so that the grafter could send home a large list of dead.

The sentencing of Private Buwalda to three years on Alcatraz Island for having shaken hands with Emma Goldman here, was framed up beforehand, said Kirk. The army officers had agreed to have the thing done to prevent soldiers from becoming socialists and Buwalda will be released in a few weeks, says Kirk.

DEMOCRATS FOR DENVER

The Nevada Delegation of the National Democratic Convention to be held in Denver on July 7th, will leave Reno in two special cars on the Overland limited on next Friday night and will arrive in Denver on the morning of July 6th. All the regular delegates will go and will be accompanied by many of the alternates and other prominent Democrats, which will make the party from Nevada one of the largest in Denver.

The delegates are as follows: National Committeeman John Sunderland, Senator Newlands, Governor Dickerson, Senator Greene, Ole Elliott, Chas. Evans and Ed Clark. Congressman Bartlett will also be a member of the party and will be in charge of the Democratic Enthusiasts, who are going to Denver to cheer for Bryan.

It was the original intention of the Nevada delegation to leave for Denver with the California delegates, who will pass through Reno on a special train on July 3d at 5 o'clock, but Governor Dickerson was unable to get away at that time and for that reason the plan had to be given up.

SENTENCE OF ORCHARD

Is Commuted to Life in Prison. Prisoner Desired Death

BOISE, Ida., July 1.—The State Board of Pardons commuted the sentence of Harry Orchard, who was under sentence to hang next Friday for the murder of former Governor Frank Steunenberg, to imprisonment for life.

The board in taking this action acted on the recommendation of Judge Freemont, who ordered it made at the time of sentencing Orchard. No one appeared to oppose the commutation, and by the unanimous vote of the Board the clemency was extended.

Orchard, to the last, was opposed to having the sentence of the court interfered with. Only yesterday he expressed to his attorney the hope that efforts to save him from the gallows would fail.

Longest Plant In the West

During the past year about \$10,000,000 worth of ore was purchased and treated by the Nevada-Goldfield Reduction company, a corporation under the laws of Nevada, says the Goldfield News.

This sampling works is one of the very largest in the west and offers exceptional advantages in receiving ores and caring for and holding the same after sampling, while awaiting the mill to work the ores. The track system is ideal, allowing a train of cars to be handled without the need of locomotives. Ores from railroad cars or wagons is received and weighed on the ground floor, then dropped to under bins for storage. The main crusher with a capacity of a ton a minute, is below these storage bins or on the second floor or level below ground. The crushed ore flows on to the big belt line which elevates it ninety three feet vertically to five Vazen samplers. As the sample is mechanically cut out, it passes through crushing rolls and other pulverizers, and at each stop continues to be cut down mechanically to the fine control samples, on which the ore is purchased. The works, shops, refinery, assay office, hoists, residences, tracks and trans cover about five acres, enclosed by an eight-foot fence.

At the Park Theatre Tonight

A good crowd attended the Park theatre last evening and thoroughly enjoyed the program presented this week. The film of The New Military Airship Ville de Paris is exceptionally fine and very interesting as is also the Mystery of the Diamond Necklass. This week two comical films are presented, The airship, or 100 years hence and Do as you would be done by. Now and each one is a laugh maker.

If you want to spend a pleasant evening visit the Park Theatre tonight.

Livingston will supply you with refreshments on short notice.

BIG NAVIES WILL MEET

Japan and American Ships Will Assemble at Yokohama

TOKIO, July 2.—It has been announced that the grand naval maneuvers will begin Oct. 15 and continue until the emperor's general review of the fleet in the latter part of November.

SAN FRANCISCO, July 2.—This announcement was received with marked interest when transmitted to officers of the American fleet in the harbor.

The American ships are due, according to the schedule, to arrive at Yokohama on Oct. 17.

The net result is that the navies of America and Japan will be in active trim, ready for a "frolic" at the same time in the waters of Japan.

The American fleet will be at battle practice in Manila bay at the time of the general review by the emperor, when the whole Japanese navy is expected to be mobilized at Yokohama.

Most positive denials are made that there is anything extraordinary in the announcement of Japan's naval plans. It is said that the review and maneuvers are regular set performances and it is explained that it is only natural that the Japanese should want their ships to be in fine trim and make a good showing when the Americans visit their shores.

SPARKS ESTATE WORTH \$100,000

The will of the late Governor Sparks has been admitted for probate at Reno. A photographic copy of the document was introduced in evidence and the petition of Leland Sparks, who lacks two months of having attained his majority to have Attorney Green appointed to represent him was read and granted. Mrs. Sparks, widow of the late governor, testified that the estate in Nevada is worth approximately one hundred thousand dollars.

HAVE A NARROW ESCAPE

As the local train on the V. & T. was pulling into Reno yesterday morning a runaway team came dashing toward the cars, but swerved slightly and the wagon hit a box car with great force. The occupants were two small boys the driver having jumped when the team started and left the lads to their fate. One of the boys was thrown across the railroad track but his only injury was a bloody nose. When the wagon and the car collided the seat was torn off and hit one of the boys in the stomach, knocking his breath out, but doing no further harm.

NEW BOND IS FILED

By Receiver Wildes of State Bank and Trust Co.

Late yesterday afternoon Receiver Frank L. Wildes of the State Bank and Trust Company filed a new bond of \$1,000,000 with County Clerk Patterson who is also clerk of the district court of Ormsby County, the new bond having been approved by Judge Langan of the first judicial district.

The bond was used to replace the one which was previously given the former not having been drawn in conformity with the decree handed down by Judge Langan when the receiver was appointed.

Attorney-General Stoddard objected to the first bond on the grounds above stated and the result has been the filing of the new bond which will be accepted by all parties concerned in the case.
